TREE PLANTING DAY

LINCOLN'S BIRTHDAY TO BE CELEBRATED BY SETTING OF TREES IN PARKWAYS

The report from the Forestry Department submitted to the City Council at its meeting Friday night showed that there are 6000 trees in the municipal nursery now ready for transplanting into the city parkways. Some can be held over for another year, but the larger number should be moved now. The Forestry Department has been planting about 2000 trees annually for the past three years. Provision was made in this year's budget for planting a like number, but it is believed if a day were set apart as tree planting day that citizens would be glad to co-operate in the planting of several thousands of these trees, leaving department funds available for their care. To that end the Board was asked to name Thursday, February 12th, Lincoln's birthday, as Glendale's tree planting day, and the request was granted. It also approved the suggestion that authorization be given to secure the volunteer services of citizens in the planting of 3000 trees in the parkways on that day. The trees consist largely of California live oaks, sycamores, camphor and several varieties of acacias. There are also available several varieties of pines and of palms suitable for parkway planting. No details for the carrying out of the plan have been perfected as yet, but the matter will be taken up right away and announcement made in due time.

RESIDENCE GARAGES

TAKE THE PLACE OF BUNGALOW COURTS FOR SHELTERLESS OWNERS

The record of building permits for December shows a great many garages to be built, of which quite a surprising number are to be used for temporary residences.

There is something about the human animal that makes him adaptable to circumstances and able to say quite complacently, "A poor place, but mine own." In these days of rapid transit in real estate ownerships, the man who has made himself sure of shelter by title deeds feels rich. And after all a commodious garage is likely to have as much room for actual comfort as many apartments. It is not, therefore, surprising to see resourceful Glendale people building garages and living in them very cozily until something better takes their places. Among the residence garages noticed are two frame structures to be built by I. G. Ferguson at 806 East Harvard. Other similar permits have been taken out by the following:

Joe McFeeters, 1403 South Central Avenue.

D. Hunsberger, 412 West California Avenue.

Virgil Montgomery, 126 West Eulalia.

G. C. Taylor, 441 West Broadway.

The garage built by C. O. Pulliam on Pioneer Drive for temporary residence has already been referred to in the Evening News.

Among other building items of interest is the taking out of a permit by J. J. Burke for the erection of a kindergarten building on the Columbus Avenue campus.

The permit record also shows that Contractor Caldwell is building another house for Anna Gunnerson at 522 West Broadway.

Harry Flower, who has sold his home on East Maple, is building a new one at 1117 East Maple.

DEATH OF PEARL C. ENSLEY

Pearl C. Ensley, whose home was at 459 West Wilson Avenue, passed away December 26th, leaving a wife and one child. He attained his thirtieth birthday about six months ago and was a salesman for the Graham-Reynolds Electric Company in Los Angeles. Funeral services will be held today at 2 p. m. at the Little Church of the Flowers in Forest Lawn Memorial Park, with Pulliam & Kiefer in charge.

DEATH OF MRS. SOPHIA PORTER

Mrs. Sophia Porter of 405 East Harvard Street, whose serious illness was reported yesterday, died the same evening, December 26th. Funeral services will be held Monday afternoon at 2 o'clock at Jewel City Undertaking Parlor. Interment at Forest Lawn Memorial Park.

DOUBLE MURDER

TWO JAPANESE ARE MURDERED WHILE DRIVING TRUCK ON TENTH ST., BURBANK

This morning the bodies of two murdered Japanese were found just north of Tenth street, Burbank, on Providencia. The truck they had been driving, which was subsequently proved to be one they had rented from J. E. Hasline of 626 South Grand avenue, Los Angeles was found standing in the middle of the road, their bodies lying about a dozen rods from it.

According to W. P. Coffman, editor of the Burbank Review, six bullets had been fired at one of the men, three of them passing through his head. The other man was hit by three shots. Papers found upon one body bearing the name "Fagashui," 304 East First street, Los Angeles, furnished a clue which may lead to identification. Nothing was found on the person of the other victim to reveal his identity.

Up to noon today no trace of the murderers had been discovered although the police forces of Los Angeles, Glendale and Burbank are co-operating in the search and entertaining hopes of capture before night.

As yet no motive for the crime has been revealed. The fact that the men were hit in the back is considered an indication that they were being chased and the bodies show that several shots were fired after they fell. Belief is entertained that the murderers fled in an automobile and that several participated in the crime.

MR. KELLY BUYS BUSINESS LOT

F. McG. Kelly, proprietor of the Glendale Plant and Floral Co., has bought through the H. L. Miller Co., a lot just south of Bartlett & French's auto agency, and will build thereon temporary accommodations to occupy while the new theatre building, to be erected on the site of his present location, is going up. He expects to occupy one of the store rooms in the new building.

TRUSTEES' MEETING

PERMIT GRANTED FOR HOSPITAL IN PIEDMONT PARK TRACT

The Board assembled at 7:30 p. m. December 23, 1919. All members were present. The minutes of the regular meeting of December 18, 1919, were read and approved.

Abandonment of Alley
Dr. Goodno's application asking for the abandonment of the alley between Brand Blvd. and Maryland Av. south of Broadway, appeared before the Board in reference to his application. He stated that he had received the signatures, with two or three exceptions, of the owners of the lots affected, favoring the vacation. Mr. Fairchild, a property owner in the block, addressed the Board, opposing the proposition.

Trustee Henry made a motion which was seconded by Trustee Jackson, that the request be granted and the alley vacated as desired by the applicant. The motion was adopted by the following roll call:

Ayes: Henry, Jackson, Muhleman, Woodberry.

Noes: Shaw.

Absent: None.

Application to Erect Hospital

The matter of the application for a permit to erect a hospital on the Piedmont Park Tract, presented by C. W. Kent at the regular meeting of December 18, 1919, came up again at this time. Mr. Kent addressed the Board, emphasizing the fact that the institution is to be strictly a hospital and not a sanitarium. A number of residents and property owners in the vicinity where it is proposed to establish the hospital were present and expressed themselves as favorable to the project. A written communication was read from Dr. H. R. Harrower favoring the granting of the application. The matter was referred to Mr. Kent and the city attorney for the purpose of amending the application so as to conform with the requirements of the ordinance governing hospitals. Later, Mr. Kent presented the amended application, and on motion of Trustee Henry the same was unanimously granted.

Application for Permission to Remove Pepper and Blue Gum Trees

A letter was read from Mr. C. G. Stivers making application to the Board for permission to remove certain pepper and blue gum trees from in front of his property at the corner of Columbus Avenue and River-

WASHINGTON CONFERENCES

SERIES EXPECTED TO HAVE WIDE EFFECT ON INDUSTRIAL SITUATION

(Special Service to Glendale Evening News)

WASHINGTON, Dec. 27.—The last week of the year will see a series of conferences and events here which will have a wide effect on the industrial situation. The government hopes that next week's events will lead to making 1920 a year of record-breaking production and industrial peace in contrast to the year now closing.

On Monday the President's industrial conference named to succeed the unsuccessful round-table conference, is scheduled to file its first report containing outlines of the code to govern settlement and avoidance of labor troubles.

The same day the first meeting of the tribunal to investigate the coal industry will be held. On the same day the heads of the railways will meet here to map out their course under President Wilson's proclamation returning the roads to private ownership.

JAPANESE LABOR DELEGATES

COMPLAIN OF DISCRIMINATION OF INTERNATIONAL CONFERENCE IN FIXING STANDARD WORKING DAY

(Special Service to Glendale Evening News)

SAN FRANCISCO, Dec. 27.—Members of the Japanese delegation which attended the International Labor Conference at Washington, left today aboard the liner Siberia Maru. Members of the delegation said they had been advised that the Japan labor leaders are indignant because the conference made 9 1-2 hours the standard working day of Japan against 8 1-2 hours elsewhere.

FIND MURDERERS' AUTO

POLICE TAKE FINGER PRINTS FROM STEERING WHEEL IN SEARCH FOR EVIDENCE

(Special Service to Glendale Evening News)

LOS ANGELES, Dec. 27.—The police today recovered the auto believed to have been the machine in which the two men rode who murdered Albert Norwood, the wealthy Kansas City oil man last night. The detectives this morning took finger prints of the steering wheel of the machine.

Mrs. Norwood is at a hospital and unable to tell a coherent story. Norwood was killed last night in front of his home under circumstances indicating that revenge was the motive for the murder.

dale Drive. On motion of Trustee Woodberry it was ordered that a public hearing be given in regard to the application at the next regular meeting of the Board, January 2, 1920.

City Manager
The City Manager presented a communication recommending that a transfer of funds be made as follows: \$5,616.79 from the general budget fund to the insurance reserve fund for the purpose of reimbursing the said fund for loan; that the sum of \$5,600 be transferred from the insurance reserve fund to public service budget fund as a loan, the explanation being made that this loan will enable the public service department to settle in full with the American Cast Iron Pipe and Foundry Co. and the Neptune Meter Company, as the balances due those firms are drawing interest. The recommendation was adopted and the transfers ordered to be made.

The City Manager submitted a communication recommending that in accordance with the provisions of Ordinance No. 355 he recommends that 40 per cent of the daily receipts of the public service department be credited by the treasurer to the public service bond redemption and interest fund from the first day of January, 1920, to the last day of February, 1920, inclusive. The communication stated that it is estimated that this sum will amount to \$11,200, which will take care of the bond and interest payments to March 1st. It was so ordered.

The City Manager presented communications and estimates of the cost of extending the electric distributing and street lighting systems to recently annexed territory. On motion, these communications were referred to the committee of the whole.

The City Manager presented a communication to the effect that the municipal nursery has over six thousand (6000) shade trees suitable for transplanting to the street parkings, and recommending that Lincoln's birthday, Thursday, February 12, 1920, be set aside by the Trustees as Glendale Tree Planting Day, and that the City Manager be authorized to secure the voluntary services of citizens in planting at least three thousand (3000) parkway trees on that day. On motion of Trustee Woodberry, the recommendation of the City Manager was adopted; action to be taken accordingly.

The City Manager presented a communication in regard to taxes assessed against Lot 3, G. B. Edwards Tract, a portion of which lot was taken on account of opening of Sycamore Canyon Road. The tax on the same had been paid by Mr. J. F. Chandler and the City Manager recommended that as the city has realized \$455 from the sale of the improvements on said lot, also two months' rent amounting to twenty dollars, that a refund be made to Mr. Chandler amounting to \$14.59, representing the tax against the improvements on the lot. On motion of Trustee Henry, the recommendation was adopted and it was so ordered.

The City Manager reported that he had forwarded to the Board of Trustees of the City of Burbank a copy of his report submitted to the Glendale City Trustees on November 28, 1919, in regard to traffic on San Fernando Road, with the suggestion that it might be well for the City of Burbank to obtain similar reports of traffic on that thoroughfare. He had received the following reply from the City Clerk of the City of Burbank:

"Your communication of December 2, 1919, was handed to this board by Trustee Webster, and I have been instructed to advise you that a committee has been appointed to employ two men to gather the necessary data, following the form used by the City of Glendale in so far as possible."

The finance committee reported back demands approved, and on motion of Trustee Shaw, warrants were ordered to be issued in payment of the same.

Trustee Woodberry reported that the foreman of the flood control work had secured a quantity of brush and as a consequence will be able to continue the work of protection as far as Pacific Avenue. On motion of Trustee Woodberry, the Flood Control authorities were requested to substitute steel piling in place of wood in further prosecution of the work. The City Manager presented an easement to be given by the City to the Los Angeles County Flood Control District over lots owned by the city, for the purpose of constructing new channel thereon. On motion of Trustee Shaw, the chairman of the Board and the city clerk were authorized to execute the said document.

MEMORIAL HOSPITAL

GLENDALE'S SERVICE MEN TO BE HONORED BY MAGNIFICENT INSTITUTION

Several projects to honor Glendale's gallant service men who offered their lives so freely in their country's and humanity's cause, have failed of fruition, but there is one now under contemplation that rivals any previously proposed. It is the Glendale Memorial Hospital, to be erected by Kent & Son for a stock company to be composed of all of Glendale's citizens who desire the honor of connecting themselves with it. Shares of \$100 par value each will be offered on monthly payments, so every one will have a chance to participate. It is to be located at the northern edge of Piedmont Park, the highest point of land in the city proper. From it one can look down upon the city spread out in all its beauty before him, and look upward upon the everlasting hills. The hospital is to consist of an administration building and several units for hospital work. It will not be a sanitarium for contagious or other diseases, but simply a hospital for operations of all kinds. There will be every accommodation for patients, all up-to-date and highly efficient, rooms for doctors and nurses, beautiful walks and grounds and everything that goes for lovely surroundings.

In the administration building there will be a large memorial tablet containing the names of all the service men who went from Glendale and all the nurses. In gold letters will be the names of those who gave their lives in humanity's cause. This will be the outstanding feature of the administration building. The project so far has met with a most enthusiastic reception by all to whom it has been proposed, and its success is assured from the start.

ACME BUILDING NEARS COMPLETION
The concrete floor of the new Acme store building at 111 North Brand is being laid now and after that is completed the construction of shelving and counters is about all that remains to be done to complete the building ready for occupancy. With the opening of this and the new bungalow grocery now being constructed on Hawthorne, near Pacific Avenue, there will be thirty-seven stores in Greater Glendale handling groceries. And paradoxical as it may seem, the more stores that are added the better the trade of those already in business. The reason for this seems to be that with each new store to open fewer people buy their groceries of Los Angeles Stores, which is certainly as it should be.

SPEEDERS FINED AND CAUTIONED

Friday was speeders' day in the Recorder's Court. Ten offenders faced Judge Lowe to answer for looking not upon the speedometer till it registered too high. Six drew fines and the others were shown clemency with the admonition to sin not again thusly, lest a worse fate befall.

GLAD TO BE HOME

Saul Frank of 340 West Doran Street returned Christmas day from Michigan, where he was called by the illness of his nephew, Frank Friedman. The nephew was able to come home with him and is recovering splendidly in this climate, which he finds delightful. Mr. Frank is more than glad to be home again, too. He says he had forgotten what cold weather was like and suffered intensely from the severe weather that prevailed while he was in Michigan.

TOWER FAMILY TO MAKE CHANGE

Mr. and Mrs. A. W. Tower have joined the pilgrim throng of those who sing: "We Don't Know Where We're Going But We're on Our Way." They have sold their home on Adams Street to C. A. Brownell of Detroit, advertising manager of the Ford Motor Car Company. The Towers know where they want to be and have bought two lots on Orange Street north of Doran. They are now figuring on plans for a house and are anxious to get a shelter very soon.

J. S. Baird and wife of Winterset, Iowa, are here for the winter, visiting their son, A. L. Baird, 338 North Jackson, and their daughter, the wife of Dr. T. C. Young.

NEW THEATRE ASSURED

GLENDALE TO HAVE ONE OF FINEST PLAYHOUSES IN SOUTHLAND

For some time there have been rumors abroad of a splendid new playhouse to be built in Glendale, the plans for which were held up by a slight obstruction. This obstruction which was an alley that must be vacated, has at last been removed and the project will be pushed forward rapidly to completion. The important step was the purchase by Dr. N. C. Goodno, a retired physician of Pasadena, who came out here from Philadelphia several years ago, of the lot now occupied by the Glendale Plant and Floral Company, 124 South Brand, with 75 feet frontage and extending clear through to Maryland.

The sale was made by the H. L. Miller Company. Tentative plans for the building have been prepared, but no architect's drawing yet made. But Dr. Goodno says he has in contemplation a building of one story with a frontage of 75 feet and extending back at least 150 feet. Two store rooms, one on either side of the theatre entrance, will be built, to extend back only a part of the way.

The theatre proper will be full 75 feet wide and its auditorium will seat 1400 people. Every detail of the construction will be of the very highest quality, modern, up to the minute and this playhouse will not be surpassed in beauty and accommodations by any in Los Angeles. It will be conducted by W. A. Howe, Dr. Goodno's son-in-law, and only the very best films will be shown. Numerous applications have already been made for the rental of the two store rooms.

NEARING THE END

FLOOD CONTROL WORK ON VERDUGO WASH ON ITS LAST LAP

Engineer Daley, who has charge of the Flood Control work that is being done by the county in the Verdugo wash reports that the work of connecting up the steel piling and the wooden piling has begun. This leaves the line completed as far west as Brand, with the exception of the brush filling and five wagons and trucks are hauling that in from cuttings made on the holdings of the Newport Land Company in Verdugo Canyon.

Next week the big force of men under Mr. Daley will move to the section between Brand and San Fernando Road to begin the driving of piles there.

The engineer expects to begin very soon the designing of a concrete sand trap and other work to be done in Sycamore Canyon by the county. Instead of letting a contract for this work it will be turned over to Mr. Daley and the men under him and thus save to the county the contractor's profit on his own labor and the men he would employ. Mr. Daley feels he has a cinch on the situation because he has rounded up all the labor in sight and any contractor bidding for the job would have to pay more than the county is now doing to get the labor away from its present employment, which would at once increase the odds against the contractor. As soon as the city is ready to take up the Sycamore Canyon improvement, the county will co-operate, Mr. Daley says.

MARQUARDTS RETURN

Mr. and Mrs. John Marquardt, professional musicians, who formerly resided at 508 North Kenwood Street, this city, and who disposed of their property to go to Sierra Madre, are again residents of Glendale. It appears that they always missed the Jewel City and after a six months' residence were glad to take an advantage of an opportunity to dispose of their big home in Sierra Madre to parties seeking a location for a sanitarium. They then went to Long Beach, not being able to rent quarters elsewhere and have now bought from Mrs. Foy a mission style bungalow with which they are greatly delighted at 432 West Broadway. The house has a three-room frontage, being 41 feet wide, and is exceptionally well adapted to their needs. It also has a fine view of which they are most appreciative. They have named their home "La Micosia."

WEATHER FORECAST: Fair tonight and Sunday.

THE GREEN SEAL

THE PREST-O-LITE REVOLU-
TIONIZES BATTERY BUSI-
NESS OF WORLD

Prest-O-Lite Green Seal batteries
which are kept "green" until the day
they are placed in the users car,
strikes a new and very responsive
note of favorable opinion from the
modern but justly critical motorist.
This is the opinion of the Blix-Hunt
Company, local distributor for the
Prest-O-Lite in this community.

When the automobile was first
placed on the market the public
came, saw and was conquered. The
same story has been repeated with
practically every improvement and
betterment to comfort, convenience
and economy of automobile driving
and operation but never before in
the history of industry has one par-
ticular feature been so completely
revolutionized, as has the battery
business, through the introduction of
the "green seal" Prest-O-Lite.

The secret of success in the "green
seal" feature lies in the fact that
under this process of manufacture
the battery as made and shipped at
the Prest-O-Lite factory is only a
"shell" of a battery, so-to-speak. A
battery, in the strict sense of the
word, does not become a battery un-
til it has received the acid, chemi-
cals and distilled water and the in-
itial charge of electricity that makes
it the greater reservoir of light and
power that is hidden in the bowels
of the car.

Now it is a well known fact that
acids and chemicals have a deterior-
ating effect upon the metal plates of
the battery. For years manufactur-
ers have puzzled over the problem
of battery preservation prior to the
time that the battery was placed in
the car, charged and put into use.
Batteries made under the old fash-
ioned process were filled with acids,
and water the day they left the fac-
tory. If they lay on a dealer's shelf

WE RESOLVE

that if any better cars in their
class than

Studebaker Pleasure Cars

Moreland Trucks

Reo Speed Wagons

are brought out during the year 1920, we will
use every effort to secure the agency for them.

There are no better cars made now.

WE RESOLVE that we will do our best to secure
from the factory enough cars to supply the demand
during the coming year.

WE RESOLVE that we will use every means to
increase the efficiency of each department of our
business in the NEW YEAR.

The above are only a few of the good resolutions we
have made for the New Year.

from six to nine months before be-
ing placed in the users car they were
just that much "worn out" when put
into use. This is the cause for quick
deterioration of so many inferior bat-
teries that haven't stood up under
trying conditions on the market.

FORD STARTERS

OUTPUT GREATER THAN THAT
OF ANY OTHER ELECTRIC
DEVICE IN WORLD

Ten months ago the Ford Motor
Company was not manufacturing
electric starters; today the output of
the starter department is greater
than that of any other manufacturer
of electric starting devices in the
world. Its nearest competitor makes
1000 a day, whereas the Ford Mo-
tor Company's output is over the
3000 mark, according to B. L.
Graves, manager of the local branch
of the Ford Motor Company.

The Ford starter and generator,
for they are really two separate
units, is not the result of a new idea
or a sudden decision. More than
eight years ago Henry Ford's vision
saw the need and his electrical en-
gineers were instructed to begin ex-
perimenting.

Within another thirty days or six
weeks the Ford Company expects to
be making enough starters so that
every Ford car will be equipped with
the electric starting and lighting
system.

THE NEW YEAR

will soon be ushered in. Nineteen nineteen, with its hopes and fears, joys and sorrows, will soon be a part of the past. The man who can look back over the year just closing and not see errors in his judgment and mistakes he has made in the administration of his business is either a very wise man or a conceited one.

The Monarch Auto Supply Co.

has done its best to serve the motoring public in the year that is passing, but seeing the old year in retrospect we can readily discern where we can make improvements in our stock and in our service the coming year.

"Everything for the Automobile"

Will Continue to be Our Slogan Through The New Year!

APPROACHING CROSSING

THE SAFE AND SANE WAY IS TO
AVOID AUTOMOBILE
ACCIDENTS

The time has come that drivers of automobiles know better than they do. This is true of the driver who approaches a crossing at a speed at which he can not control his machine. A man is never that busy, or should be in that much of a hurry but he should approach a crossing in a sane manner.

An automobile not under proper control of the driver is a dangerous piece of machinery to be on the road. Auto accidents would be lessened if drivers would at all times operate their machines under their control.

AUTO PARK UTILIZED

HOUSE FAMINE RESULTS IN
TENT CITY WHICH DRIVES
OUT REGULAR CAMPER

Mrs. E. L. Dayhuff, who is visiting in Glendale for a few days, tells of an odd result in her home city. Tulare, of the house famine which prevails all over the coast region. Tulare has a very fine auto camping park, one of the most convenient and best equipped in the state, though Tulare is a city of but 4000 people. Many tourists who were unable to rent houses in the town actually settled down to live in the camping park, under the tents there provided or those brought with them, using the accommodations most freely. So many have done this, Mrs. Dayhuff states, that there is no room for transients who wish to stop for a night, only while passing through, and the city authorities are seriously considering the eviction of the squatters, yet are loath to do so, as that would mean quite a loss of trade to the merchants of the city.

HUDSON-ESSEX AGENTS

FORMER NAVAL OFFICERS TO
LOCATE IN GLENDALE
JANUARY 1

Another automobile sales agency is to be established in Glendale, the agents being R. C. Chambers, Jr., and Gordon P. Felts, two former service men who are now living in Los Angeles but expect to move to Glendale. These gentlemen have taken the agency for the Hudson Super-Six and the Essex and will be located on automobile row, at the northeast corner of Brand and Broadway, the present location of E. J. Jackson of the Overland agency.

Mr. Chambers was ensign in the pay corps of the U. S. Navy during the war and Mr. Felts was ensign in command of a submarine chaser.

May You Have No Battery Trouble in 1920

This is our New Year's wish for you and we are in a position to make it come true, too.

You will have no battery trouble if you use USL service. Register your battery here for regular inspection.

Bring in your battery that you have been told are "worn out," "dead" or "shot," and have us put it in first class condition for you.

Personals

Wm. Worley is having a beautiful
home built on North Jackson St.,
just south of A. J. Malarkey's recent-
ly completed residence.

Joseph De Grasse of Windsor Road
and Central Avenue has just had his
home remodeled, painted and papered.
The cement job was done by
Homer Mead, while E. D. Yard con-
tracted for the other work.

Assemblyman John Robert White
and family spent a quiet but very
pleasant Christmas at home. Fol-
lowing the distribution of gifts and
the big Christmas dinner, calls were
made in the afternoon and the even-
ing was spent with relatives.

Mr. and Mrs. Frederick W. San-
ford of 417 North Maryland Ave-
nue are entertaining their son, Fred
W. Sanford, who has returned from
Denver to spend the holidays with
them. He plans to go back early in
January.

Miss Dennis Connell of Redfield,
South Dakota, has been the guest of
Mrs. Jack Thomas of the White Inn
for several days. Mr. Thomas was
called to St. Louis by the serious ill-
ness of his father, and was away
from home over Christmas. Mrs.
Thomas looks for his return tonight.

Dr. W. J. Jeter and family who
have been living at 114 North Bel-
mont for a few years, were com-
pelled to vacate by the return to
Glendale of the owner of the house,
in which they lived. They bought
a place in Eagle Rock and moved
there.

Frank and Miss Louise Hester are
home from Berkeley for the holidays.
Frank is taking the two-year farm
course at Davis and is greatly de-
lighted with the work so far. He
is engaged in practical farming and
the outdoor life evidently agrees
with him.

William W. Worley of 525 Ken-
wood is having a seven-room home
built on Jackson below Lexington
Drive by E. D. Yard of 127 Mary-
land Avenue. H. E. Betz is doing
the brick work. The cost of build-
ing the home is estimated to be be-
tween \$6000 and \$6500.

Dr. Parker of 426 North Mary-
land has had his home remodeled
and enlarged. A sleeping porch and
sun porch has been built. Kitchen re-
modeled, hardwood floors laid, and
the inside has been painted and pa-
pered throughout. The outside has
also been painted. The work was
done under the supervision of E. D.
Yard.

John H. English, who with his
wife and family, formerly resided in
Glendale on West Lexington drive,
is now living in a home at St. An-
drews Place, Los Angeles, for which
he exchanged Colorado property. He
was in Glendale yesterday and re-
ports a jolly Christmas with all mem-
bers of the family assembled, includ-
ing his daughter, son-in-law and
grandchild.

E. L. Dayhuff and wife, their son
Arthur, and daughter, Irene, of Tu-
lare came down the first of the week
to visit Mr. Dayhuff's mother, Mrs.
T. C. Stem, and sister, Mrs. R. P.
Jodon, of 224 South Louise. He
went back Thursday, but will drive
down for the family after New Years
and take them home in their ma-
chine.

Mr. and Mrs. A. M. Beamon enter-
tained with a family party on Christ-
mas Day, their guest list including
Mr. and Mrs. C. H. Du Bois of Long
Beach, parents of Mrs. Beamon, and
Mr. and Mrs. M. V. Beamon. For
the young folks of the party Charles
Beamon, Gertrude and Charles Du
Bois there was a fine Christmas tree
and a very pleasant social day was
spent.

James Howarth of 414 East Har-
vard Boulevard is having a new
home built for him and his family
at 343 North Isabel by Bentley-
Schoeneman. It is a six-room house
and has a large cement cellar which
was built by Mr. John W. Henderson
of 120 South Glendale Avenue. The
carpenter work is being done by J.
A. De Muth under the supervision
of W. S. May. Mr. Allison will be-
gin the painting within a few days.

Rev. Clyde Monroe Crist, of the
First Methodist Church, this city,
had the pleasure of officiating at
the wedding of a former parishoner
on Christmas eve. The lady chief-
ly concerned in the important event
was Miss Carmen Neukom, a mem-
ber of Vincent Methodist Church of
Los Angeles, of which Rev. Crist was
formerly the pastor. The groom was
Vern L. Adams, a man of some promi-
nence in the oil business at Shale,
California, where they will make
their home.

PROBABLY

the greatest blessing which we
have received the present year
is the banishment of the liquor
traffic forever from our be-
loved land. In view of that
fact some of the extravagance
shown in Christmas purchases
may be forgiven. The econom-
ic gain, in money and produc-
tion, will be enormous for all
time, not to mention the moral
and social gains which are in-
calculable. Perhaps you haven't
thought of what a large bear-
ing this will have with net cost
of Mutual Life-Insurance.
When men cease to destroy
their health with intoxicants
they are bound to live longer.
Haven't we all reason to re-
joice and be glad?

NOTICE TO CREDITORS

No. 44729

Estate of Mable J. Blake, deceased.
Notice is hereby given by the under-
signed Executor of the Estate of
Mable J. Blake, deceased, to the
Creditors of, and all persons having
claims against the said deceased, to
exhibit them with the necessary
vouchers, within four months after
the first publication of this notice,
to the said Patrick J. Blake, at the
office of James F. McBryde, 103-A No.
Brand Blvd., City of Glendale, Coun-
ty of Los Angeles, State of Califor-
nia, which said office the undersig-
ned selects as a place of business in
all matters connected with said es-
tate, or to file them with the neces-
sary vouchers, within four months
after the first publication of this no-
tice in the office of the Clerk of the
Superior Court of the State of Cali-
fornia in and for the County of Los
Angeles.

Dated, December 3rd, 1919.

PATRICK J. BLAKE.

James F. McBryde,
103-A No. Brand Blvd.,

Phone Gl. 1000.

The many friends of Mrs. Henson
Rogers of Dallas, Texas, will be in-
terested to know that she arrived in
Glendale Monday to spend the holi-
days with her parents, Mr. and Mrs.
John W. Stauffacher of 721 Orange
Grove Avenue.

David Hartley of 231 North Bel-
mont, who has been very ill of kid-
ney and heart trouble for eight
weeks, is gradually growing weaker.
He had a serious fainting spell yes-
terday and was thought to be pass-
ing away, but afterward rallied. He
is 84 years of age.

S. A. Davis of 225 South Central
Avenue is leaving Sunday for Kan-
sas City, Mo., and other points in
the east. He is going alone, and is
expecting to stay about a month. Da-
vis is making this trip first for busi-
ness, but will also visit his father,
mother and four brothers.

Mr. and Mrs. J. W. Graham and
their granddaughter, Marcella Orth,
who recently returned from a three
months' visit in Pennsylvania and
Ohio, say they are very much delig-
hted to get home, as they experienced
considerable zero weather while
away and cold rains where they were
uncomfortable. They will be with
their daughter, Mrs. Orth, for a few
weeks until they can secure perma-
nent quarters.

THE LIST GROWS

The subscription price of the Ev-
ening News will be increased to \$5.00
per year January 1, 1920. But un-
til that date new subscriptions and
renewals will be received at the old
price, \$4.00 per year. Following are
the names of persons who have seen
fit to save the 20 per cent by paying
a year or more in advance since 12
m. yesterday:

G. S. Learned, 311 N. Maryland.
F. R. Buchanan, 242 N. Orange.
Frank Hester, 203 E. Maple.
J. M. Fife, 314 N. Orange.
A. J. White, 228 E. Maple.

AUTOMOBILE SECTION

PUBLISHED EVERY SATURDAY

The locomotive is just a pile of iron and steel—powerless—lifeless—until the live steam is turned into the cylinder chamber—when it leaps into life and becomes a powerful engine of brute strength and irresistible force.

The Prest-O-Lite Green Seal Battery is like the steam engine—it is only the "shell" of the battery that is shipped from the factory to us—like the engine without steam. Not until the acids and chemicals are added does it come to life. It does not "begin to work" until the day it is placed in your car.

**MADE THE
SAME
DAY**

You Put it in your Car

Why pay for a battery that is three-to-six-months "worn out"—when you can get a Green Seal—a battery that is "born" the day it is placed in your car?

The Prest-O-Lite Green Seal is absolute assurance of battery satisfaction. Let us show you what real battery service is—it doesn't matter what kind you carry.

Never come to a sudden halt when driving an auto on the public highway without first giving the stop signal, and whenever possible you should get off of the traveled road

Ford

THE UNIVERSAL CAR

Let There Be No Discords

If your Ford car is out of tune, there is undoubtedly a very good reason for it. And the best way to find that reason, and have it remedied, is to jump in and drive to one of the authorized Service stations, listed below, where one of our mechanics who is thoroughly acquainted with the Ford mechanism and who knows the Ford way to adjust or repair your car, can tune it up in a garage that is properly equipped to give real Ford service. Then, too, we never use imitation parts—only the Genuine Ford-made, strong and durable. They wear from thirty to seventy-five per cent. longer than the counterfeit parts that are softer and more cheaply made. In fact, it is dangerous to human life to use imitation parts, and it is not fair to your Ford car nor your pocket book.

We are a part of the gigantic Ford Service organization whose purpose it is to serve the owners of all Ford cars and trucks; we have more than a passing interest in your car. Prompt service is given on all work—from a minor adjustment to a motor overhaul. Drive into any of our places and see the facts for yourself, there's too much money invested in your Ford car to miss connections with the authorized Ford dealers.

**Happy and Prosperous
New Year**

Max L. Green
Harry "Dinty" Moore
Hadley G. Brown

The new production figures of the Ford plant are especially significant because they so clearly indicate the success that has attended the Ford Company's remarkable transition from the manufacture of war material to those of peace times. Just as soon as the armistice was signed and cancellation of government contracts was received, the Ford Motor Company, without decreasing the number of its employees, bent toward the re-establishment of its pre-

war concentrated production, and the 75,000 car increase of October, 1919, over that of October, 1918, shows how completely successful the company was in reorganizing the plant.

There are now employed in the Ford shops in Detroit approximately 70,000 men, 55,000 of which are working in the main plant of the company.

Happy New Year
